"Committee of 300"

by John Coleman

The Committee of 300 is a product of the British East India Company's Council of 300. The East India Company was chartered by the British royal family in 1600. It made vast fortunes in the opium drug trade with China and became the largest company on earth in its time. Today, through many powerful alliances, the Committee of 300 rules the world and is the driving force behind the criminal agenda to create a "New World Order", under a "Totalitarian Global Government".

There is no need to use "they" or "the enemy" except as shorthand. We know who "they", the enemy, is. The Committee of 300 with its "aristocracy", its ownership of the U.S. Federal Reserve banking system, insurance companies, giant corporations, foundations, communications networks, presided over by a hierarchy of conspirators-this is the enemy. Secret societies exist by deception.

Each is a hierarchy with an inner circle at the top, who deceives those below with lies, such as claiming a noble agenda; thus, duping them into following a web of compartmentalized complicity. The inner circle of the Committee of 300 is the Order of the Garter, headed by Queen Elizabeth Windsor II. It is interesting to note that the Windsor's changed their name from the Germanic Saxe-Coburg-Gotha during WWI, because of anti-German sentiment.

The enemy is clearly identifiable as the Committee of 300 and its front organizations, such as the Royal Institute for International Affairs (Chatham House), the Club of Rome, NATO, U.N., the Black Nobility, the Tavistock Institute, CFR and all its affiliated organizations, the think tanks and research institutions controlled by Stanford and the Tavistock Institute of Human Relations and last, but certainly not least, the military establishment.

The Committee of 300 is the ultimate secret society made up of an untouchable ruling class, which includes the Queen of the United Kingdom (Elizabeth II), the Queen of the Netherlands, the Queen of Denmark and the royal families of Europe. These aristocrats decided at the death of Queen Victoria, the matriarch of the Venetian Black Guelphs that, in order to gain world-wide control, it would be necessary for its aristocratic members to "go into business" with the non-aristocratic but extremely powerful leaders of corporate business on a global scale, and so the doors to ultimate power were opened to what the Queen of England likes to refer to as "the commoners". Through their illicit banking cartel, they own the stock of the Federal Reserve, which is a private for profit corporation that violates U.S. Constitution and is a root of the problem.

The decadent American families of the unholy partnership, thoroughly corrupted and wallowing in tainted opium money, went on to become what we know today as the Eastern Liberal Establishment. Its members, under the careful guidance and direction of the British Crown, and subsequently, its foreign policy executive arm, the Royal Institute for International Affairs (RIIA), now known as Chatham House, located in England (across St. James's Square from the Astors), ran the United States from top to bottom through their secret upper-level, parallel government, which is tightly meshed with the
Committee of 300, the ultimate secret society. That secret, all-powerful government is now more in control of the United States than ever before

**Ten Top Aims:**

1. **A One World Government-New World Order** with a unified church and monetary system under their direction. Not many people are aware that the One World Government began setting up its "church" in the 1920's/1930's, for they realized the need for a religious belief inherent in mankind to have an outlet and, therefore, set up a "church" body to channel that belief in the direction they desired.

2. The utter **destruction of all national identity** and national pride.

3. The **destruction of religion and more especially the Christian religion**, with the one exception, their own creation mentioned above.

4. Control of each and every person through means of **mind control** and what Brzezinski call "technotronics" which would create human-like robots and a system of terror beside which Felix Dzerzinski's Red Terror will look like children at play.

5. **An end to all industrialization** and the production of nuclear generated electric power in what they call "the post-industrial zero-growth society." Exempted are the computer and service industries. United States industries that remain will be exported to countries such as Mexico where abundant slave labour is available. Unemployables in the wake of industrial destruction will either become opium-heroin and or cocaine addicts, or become statistics in the elimination process we know today as Global 2000.

6. **Legalization of drugs and pornography.**

7. **Depopulation of large cities** according to the trial run carried out by the Pol Pot regime in Cambodia. It is interesting to note that Pol Pot's genocidal plans were drawn up here in the United States by one of the Club of Rome's research foundations. It is also interesting that the Committee is presently seeking to reinstate the Pol Pot butchers in Cambodia.

8. **Suppression of all scientific development** except for those deemed beneficial by the Committee. Especially targeted is nuclear energy for peaceful purposes. Particularly hated are the fusion experiments presently being scorned and ridiculed by the Committee and its jackals of the press. Development of the fusion torch would blow the Committee's conception of "limited natural resources" right out of the window. A fusion torch properly used could create unlimited untapped natural resources from the most ordinary substances. Fusion torch uses are legion and would benefit mankind in a manner which is as yet not even remotely comprehended by the public.

9. Cause by means of limited wars in the advanced countries, and by means of starvation and diseases in Third World countries, the death of 3 billion people, people they call "useless eaters." The Committee of 300 commissioned Cyrus Vance to write a paper on this subject of how best to bring about such genocide. The paper was produced under the title the "Global 2000 Report" and was accepted and approved for action by President Carter, for and on behalf of the U.S. Government, and accepted by Edwin Muskie, then Secretary of State. Under the terms of the Global 2000 Report, the population of the United States is to be reduced by 100 million by the year 2050.
10. To weaken the moral fibre of the nation and to demoralize workers in the labour class by creating mass unemployment. As jobs dwindle due to the post industrial zero growth policies introduced by the Club of Rome, demoralized and discouraged workers will resort to alcohol and drugs. The youth of the land will be encouraged by means of rock music and drugs to rebel against the status quo, thus undermining and eventually destroying the family unit. In this regard The Committee of 300 commissioned Tavistock Institute to prepare a blueprint as to how this could be achieved. Tavistock directed Stanford Research to undertake the work under the direction of Professor Willis Harmon. This work later became known as "The Aquarian Conspiracy."

The Committee of 300, also known as The Olympians, is a group alleged to have been founded by the British aristocracy in 1727. Proponents of the theory alleging the Committee’s existence believe it to be an international council that organizes politics, commerce, banking, media, and the military for centralized global efforts. The theory dates to a statement made by German politician Walther Rathenau in a 1909 article “Geschäftlicher Nachwuchs” in Neue Freie Presse: The Committee of 300 evolved out of the British East India Company which was established in 1727 by the British elite, the group is also known as the Olympians. The number 300 is derived from the 1909 article Geschäftlicher Nachwuchs by Walter Rathenau of General Electric. In 1909, Walter Rathenau said the following about the Committee of 300: "Three hundred men, all of whom know one another, direct the economic destiny of Europe and choose their successors from among themselves."
The Committee of 300 is for the most part under the control of the British monarch, in this case, Queen Elizabeth II. Dr. John Coleman / The Committee of 300. By the early 1920s, the "300" through the Rothschilds had a stranglehold on the biggest gold and diamond fields in the world. Now the Committee of 300 had at its disposal both the vast fortune coming from the drug trade and the equally vast fortune of the minerals and metals wealth of South Africa. Dr. John Coleman / The Committee of 300.
