Selected Books on Mentoring Women

Dr. Joye Baker

"The book tells of how young women in the academic world are often mentored by older, more established men. Rushing uses pre-patriarchal mythology to untangle the meanings of these mentoring relationships for the women who shared them, for herself, and for any reader who might still struggle with similar experiences. Hers is a loving, compassionate account of the challenges, and the breakthroughs and transformations, of women as they reflect upon the shifting meanings of these mentoring episodes in their later lives." - International Association of Jungian Studies.
